RoHS – ANADIGM STATEMENT OF SUPPLY

Anadigm introduced RoHS compliant versions of each of our dpASP and FPAA Product's from Q4 2004.

From mid-year 2006 we expect all new orders to be for the supply of RoHS compliant devices.

These products are constructed of a material set which meets the requirements commonly referred to as:-

- RoHS , specified in **DIRECTIVE 2002/95/EC OF THE EUROPEAN PARLIAMENT**
- WEEE, specified in **DIRECTIVE 2002/96/EC OF THE EUROPEAN PARLIAMENT**

Recommended re-flow solder profile for these devices can be found on our web site, Lead finish is Matt tin and copper (Sn-Cu).

<http://www.anadigm.com/desnotes/REFLOW%20SOLDER%20Profiles%20Anadigm%20FPAA.pdf>

The "Lead-free" component marking is distinguished from non compliant older stock by the addition of "e2" as an appendix to the part marking. e.g. AN221E04-e2

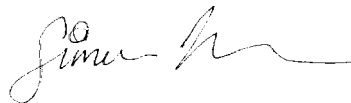

And the ordering information

ANx2xE04-e2-QFPTY (Trays of 96 device in boxes of 960).

ANx2xE04-e2-QFPTR (Tape and reel, 1000/reel).

AN231E04-e2-QFNTY (Trays of 260 in boxes of 1300)

Your Sincerely

Simon Dickinson
